

Homepage (public landing)

This page is publicly available as the home page.

Display screen view port is

This page is the first landing page on our domain and gives public users access to know a bit about us, browse through organizations and see their public info, contact details of the website, joining and login section as an individual or a volunteering organization branch.

The top menu is dynamic and scrolls with the page, sticking to the top of the view port. All other elements are static on the webpage. However, they will change in width and shift within their section while the screen is changed in size, e.g. opened in a mobile phone, to the minimum width shown below.

FOLLOW US

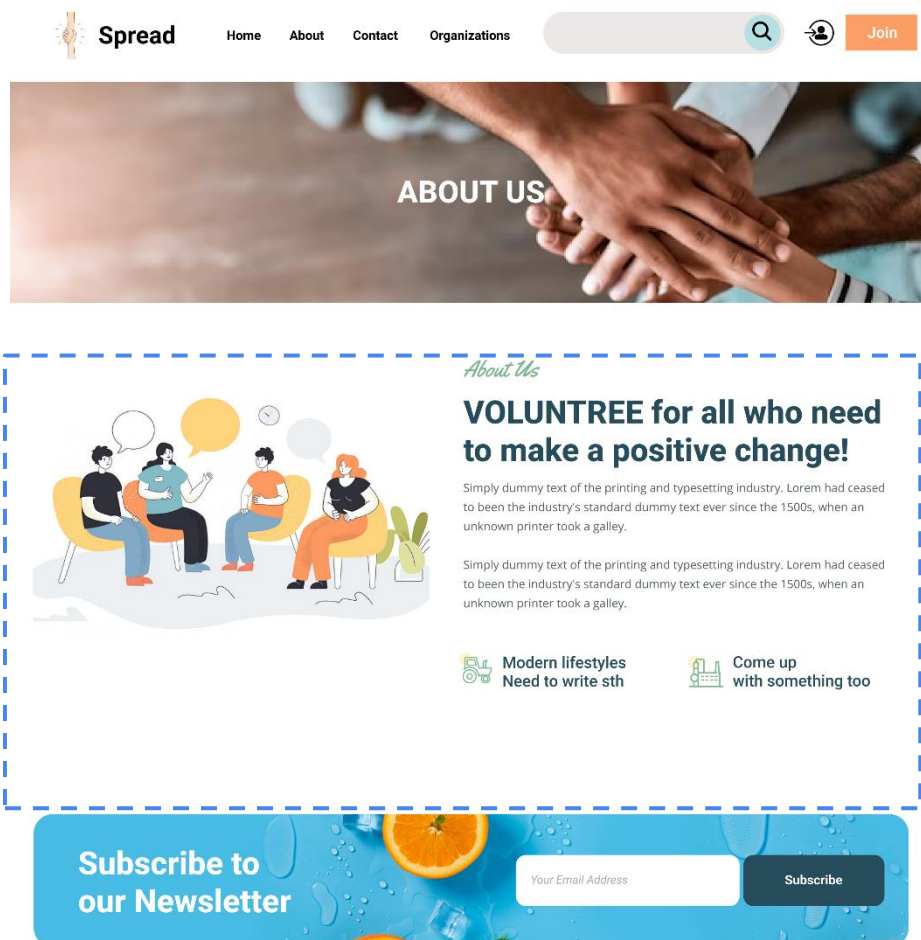

Features

The top menu has navigation shortcuts to the registered organizations list, contacting page, about us page, Home button and logo which directs to the homepage if it gets clicked on.

Users can see the upcoming public events in a small calendar on the homepage and open the details of each event individually by clicking on the details button. Users can subscribe to the newsletter of the website by email and open the social media pages of the website through linked icons on the bottom.

A drop-down menu will be shown when mouse is hovered on the log in or sign-up icons which will lead to each roles authentication page accordingly

About us page

In this page, users can get introduced to the purpose and the services of this web app, building trust and showcasing the credibility of it to potential members.

3 different tones of complementary colors which were chosen to design this webapp with, in a fun and clean way. This color scheme enhances the readability and accessibility of the pages by decreasing eye fatigue through utilizing warm and cool colors, harmonious visual elements and balancing the visual load on different sections of the website. Use of light backgrounds and contrasting colors and an appealing layout, allows users to interact and easily browse through the pages. This also allows the website to shape in accordance to the brand identity and an emotionally expressive manner.

FOLLOW US

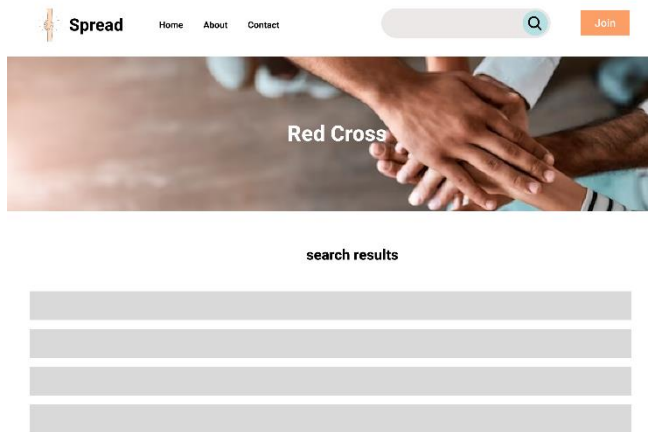

Users will be directed to the Signup page if they click on the join and to the Login page if they click on the profile icon.

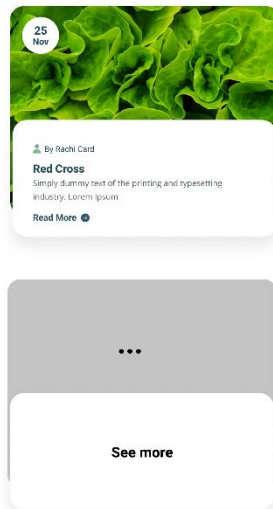

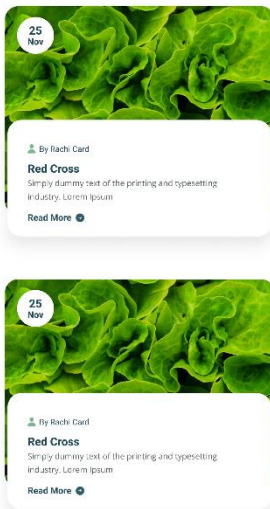

The Search bar will search through the database and show links of

results similar to the typed text. It will direct to the Search Result page on tapping the Enter button on the keyboard or clicking on the magnifier icon.

Sign up page: Public users can register as a member to the website using their email or through google authenticator. By becoming a member they can become volunteers or branch managers of an organization. Login page: Users have the ability to authenticate by email and password if they are already members. One will proceed to the registration prompt page on successful submission of their email address. If the email address is invalid or already existing, they will remain on this page, receiving a message: “unsuccessful, please try again.”

Your Info Page

Registration prompt:
After confirming the email address on the signup page, users will be prompted to this page to complete their profile information. This Information consists of name, date of birth in the depicted format (selective from a drop-down menu), gender, and a selection of the initial organizations they want to join to become a manager of. On other pages of this prompt, other information such as phone number, address, and email address are added. A status bar on the top indicates how much of the sign up process is left.

Community Cleanup

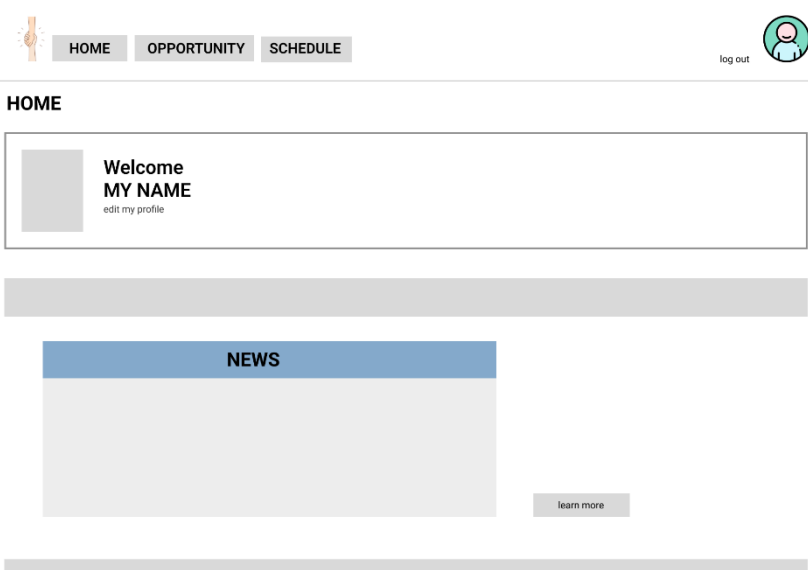

12th May 2023, 10:00 AM

After sign up or on a successful log in, volunteers will be directed to this user panel. On this page they check the latest updates and events of the branches they are members of and open each one by clicking on it. On the upper part of their panel they have a list of their organizations and they can discover new organizations as well. (The indicated parts in the design are only placeholders.) Volunteers can view and update their information through the edit profile button and easily RSVP for the list of events by clicking on RSVP.

If the organizations pane was scrolled or swiped, it will swipe left or right to next followed organizations and on upcoming events, it will result in scrolling toward later events.

Users can quickly Rsvp by clicking the RSVP button in front of the

Updates pop-up

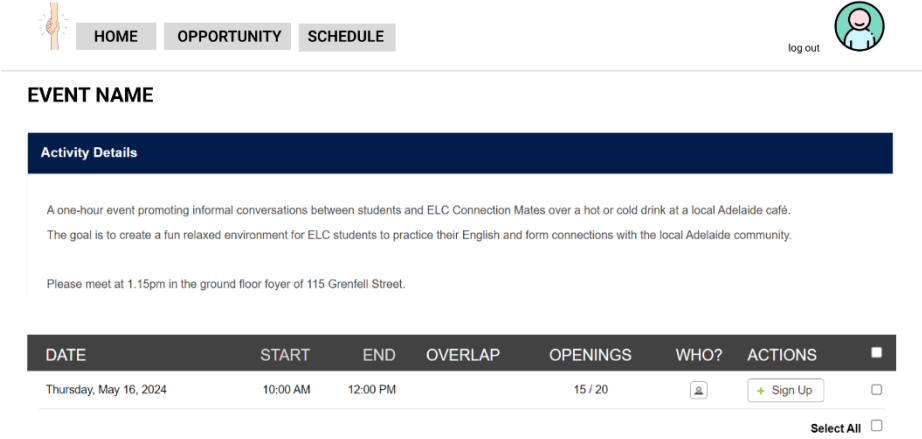

News Page: the schematic shows the news page. This pop-up page opens when the users click on news button from the top menu, or click on view more updates button from their portal. Here they can see detailed list of the updates from organizations they are following.

Events Page

On this page users can see the upcoming events. They will be directed to this page by clicking on the Events button from the top menu, or click on more info from the events section of the volunteer portal. Users can filter the results in a time frame. In a list users can see event names, time, date, location and short description of the public events and private events that they can attend. By clicking on each event a pop-up containing all details of that event will show and they can RSVP.

Event details

This page shows the details of each event. Volunteers can RSVP on this page while Organization admins can see members who have RSVPed for this event.

If a user be appointed as an admin and login as an administrator, they will be directed to their administration panel. On this page, there is a navigation panel on the left with shortcuts on the menu, making admins able to navigate to different parts of the website very quickly. Admin can manage Users, open organization page and edit organization branch info. On the first view port of the admin panel, they can see stats and charts indicating stats on the number of new members and events.

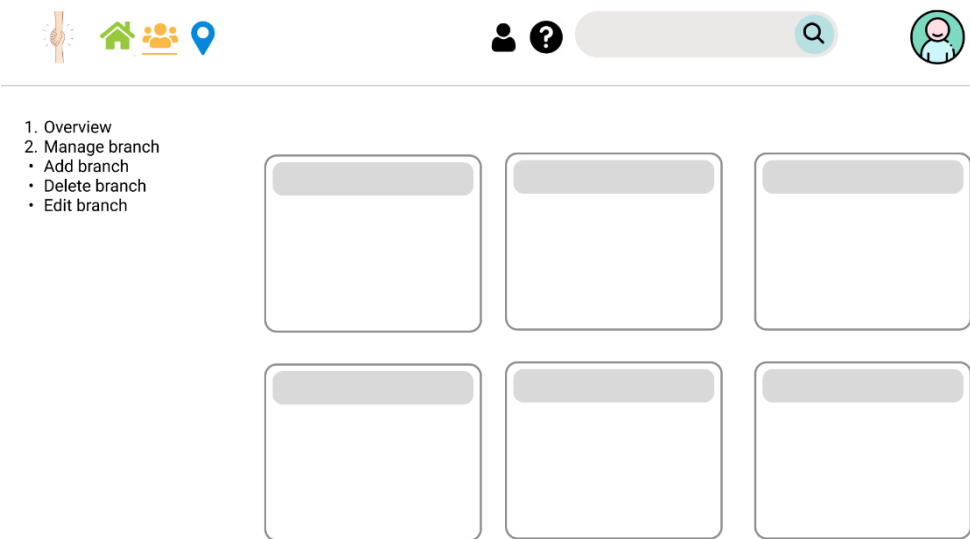

Community Volunteering Program

Add an admin

The screenshot shows the 'Add New Admin' form in the Volunteer Connect application. The top navigation bar is identical to the previous screenshot. The left sidebar is also identical. The main content area is divided into two sections. The left section is a form for adding a new admin, with fields for: Email Address, Username, Password, Confirm Password, Salutation, Legal First Name, First Name, Middle Name, Last Name, Suffix (with a dropdown for Jr, Sr, III), Pronouns, Address line 1 (with '250 North Terrace' entered), Address line 2, City (with 'Adelaide' entered), Country (with 'Australia' selected), State / Province (with 'South Australia' selected), and Zip / Postal Code (with '5000' entered). The right section is a confirmation message titled 'Admin role granted!' with the text 'User [email] was given admin role for [organization ID] OR [type] successfully.' and buttons for 'Done' and 'Email'. The bottom of the page shows a footer with '© 2022 Volunteer Connect. All rights reserved.' and links for 'Privacy Policy' and 'Terms of Service'.

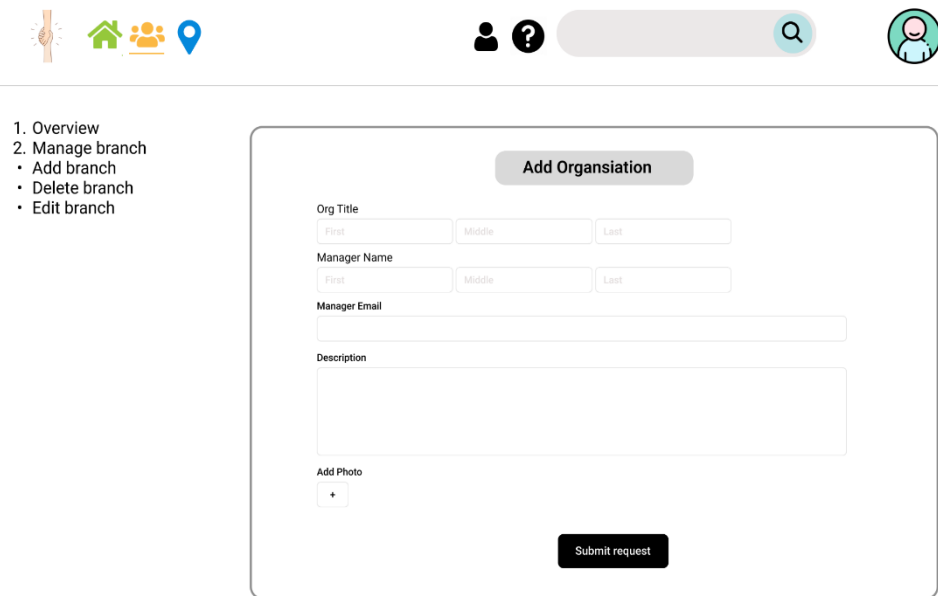

Moreover, admins can appoint other users as new admins using their email and name. They can manage user information using the list of users or delete their data.

Branch Management

On this page Admin can see all the branches and open and edit them individually. They are listed as tiles.

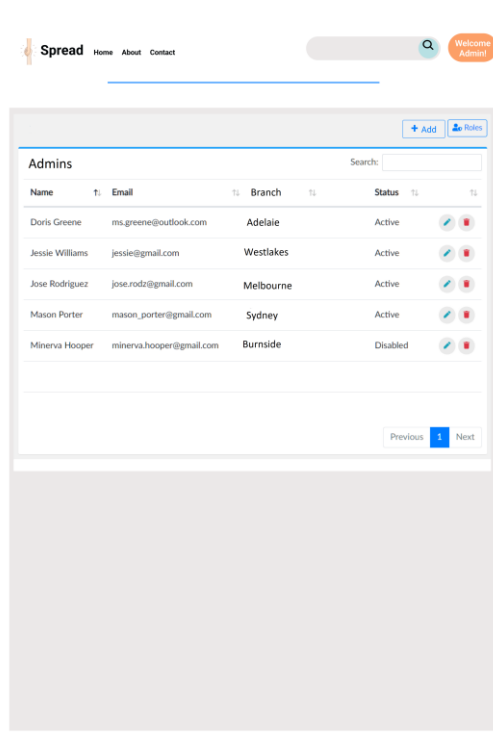

Add Branch

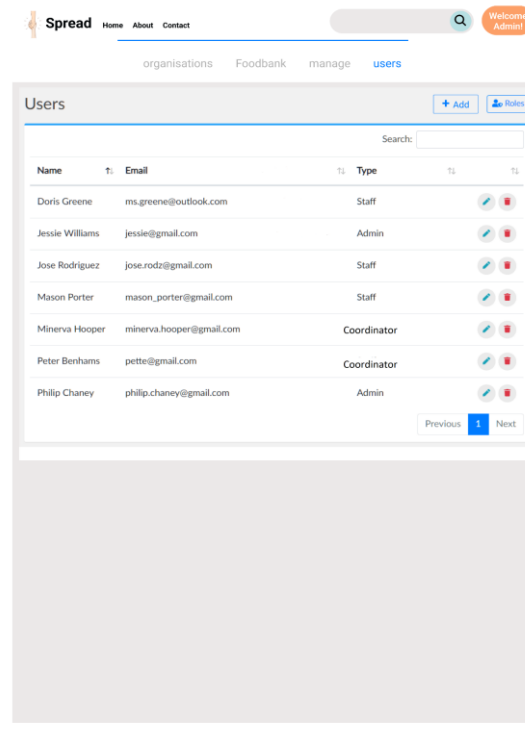

Admins can add new branches in this page. Some information is required to make a new organization. In case of typing invalid data, page will not proceed and an error will be show below the form. If, successful user will be sent to the Branch page of this new organization.

Managers can edit the general information of their organization on the same page, which will be accessible when they are in their branch management panel.

Admin management panel

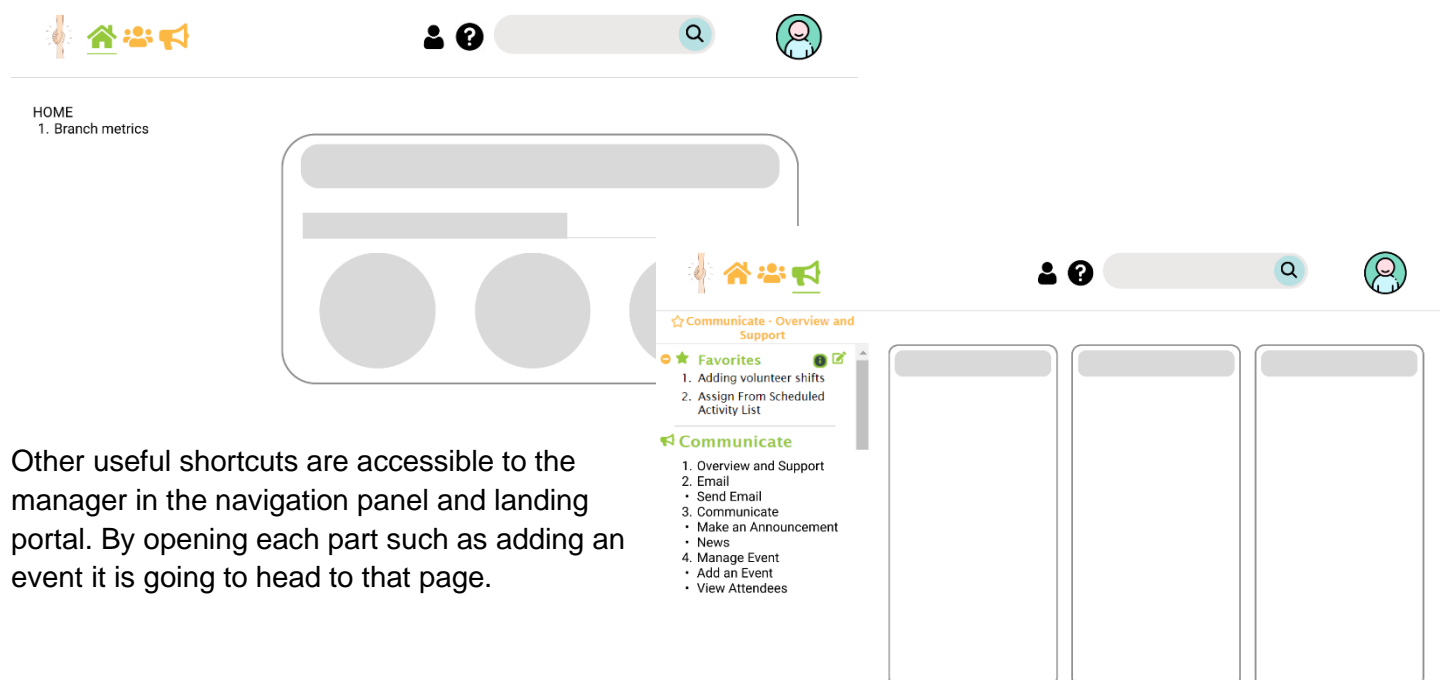

User management panel

Admins can edit the information of users on admin and user management panels. They can search, remove, edit and list the users here.

Branch Portal

Managers on successful login will enter this page. At first it gives a short overview of the statistics from the count of members, recent RSVPs, and other metrics of the branch via charts and schematics. It also has shortcuts to other parts of the portal that the manager can Manage

Other useful shortcuts are accessible to the manager in the navigation panel and landing portal. By opening each part such as adding an event it is going to head to that page.
