

Adelaide University Sport

<https://www.adelaideunisport.com.au/>

Style:

The website is clean and fun. The use of black, white and blue (university color) throughout the website provides a branded look. We can take inspiration to plan the **color scheme according to the theme/purpose**. The inclusion of **high-quality images** adds visual interest and showcases the university's sports programs effectively.

Structure:

Users can easily access information about sports teams, events, facilities, and the fitness hub through **well-defined categories in the navigation bar**. The main landing page has a **logical flow**. As users **scroll down**, they see a slideshow of sports teams, followed by a call-to-action (Join now), then a summary of upcoming events, and lastly, easy access to more detailed content through **links & menus**. We intend to follow a similar structure for our landing page.

Features:

- I. **Calendar.** Displays information about events in a nice format. Inclusion of event details such as name, date, time and location.

04 MAR	Monday Morning Mile (not too late to register, click DETAILS to register) 📅 Mon 04 Mar 2024 6:30AM 📍 Park 10 - Graduates Clubhouse	Details	03 MAY	SA Challenge: Indoor Volleyball 📅 Fri 03 May 2024 10:30AM 📍 Pridham Hall - UniSA City West Campus	Details
06 MAY	2024 AUSF AGM and Sports Council #2 📅 Mon 06 May 2024 6:00PM 📍 Park 10 - Graduates Clubhouse	Details	17 MAY	SA Challenge: Badminton 📅 Fri 17 May 2024 11:30AM 📍 Pridham Hall - UniSA City West Campus	Details

- II. **Social media buttons** at the bottom right of the page. However, the buttons are quite

Follow us on social media

small and easily missed. So, we plan to fix this by placing it in the middle of the bottom of the page and increasing the size of the buttons and words for better visibility.

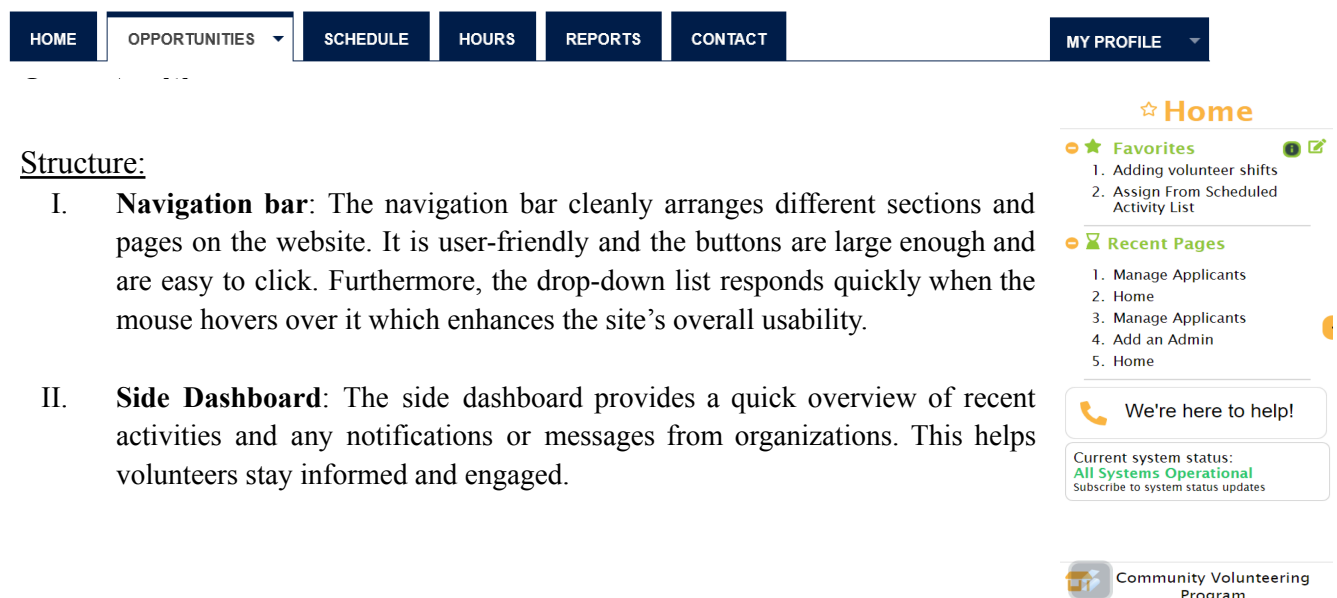

- III. **Different user roles:** Different buttons on the landing page redirect users to different pages depending on their needs. Eg: If the user wants to join, they click the “I want to Join the gym” button which redirects them to a separate web page that displays relevant gym information.

BetterImpact/MyImpact (University’s Volunteer Management System)

Style:

It uses a consistent color scheme of ‘dark blue + gray’ or ‘orange + green’. The interface effectively **utilizes whitespace**, creating a visually appealing layout that doesn't overwhelm the user.

Structure:

- I. **Navigation bar:** The navigation bar cleanly arranges different sections and pages on the website. It is user-friendly and the buttons are large enough and are easy to click. Furthermore, the drop-down list responds quickly when the mouse hovers over it which enhances the site’s overall usability.
- II. **Side Dashboard:** The side dashboard provides a quick overview of recent activities and any notifications or messages from organizations. This helps volunteers stay informed and engaged.

Features:

- I. **Volunteer shift scheduler:** displays all subscribed events and information. For our implementation, we will change ‘Organization’ to ‘Branch’. Allows volunteers to easily track their activities and plan their timetables.

- II. **Filtered search function:** retrieves relevant events based on a timeframe. Plan to expand on this functionality to search for keywords, e.g. branch name, event name, location, etc.

Volunteering SA & NT

<https://vsant.org.au/>

Style:

- I. **Text:** Subheadings have a larger size than the paragraph content, which enhances the readability and accessibility of the website. Users who utilize screen assistive technologies will be able to skip content between headings which makes navigating the webpage an easier task.
- II. **Highlights:** Visually, it is also more appealing as the important information is highlighted. Users who just scan the page will instantly be able to identify the most important information on the website.
- III. **Images:** The use of images is effective in breaking up the text and adding visual interest to the website.

 <p>I'm a volunteer</p> <p>So you'd like to volunteer? Great. We have lots of tips and opportunities to start volunteering.</p> <p>Learn more</p>	 <p>I engage volunteers</p> <p>We can make things easier for volunteer involving organisations with beneficial advice and useful contacts to help things run smoothly for you.</p> <p>Learn more</p>	 <p>Corporate volunteering</p> <p>We welcome businesses looking to get involved and create rewarding experiences. If you're not sure where to start, this is the place.</p> <p>Learn more</p>	 <p>Resources Hub</p> <p>There's a wealth of information in the 'Resources Hub' to make life easier for volunteers, volunteer involving organisations and businesses.</p> <p>Learn more</p>
---	--	--	---

Structure:

- I. **Homepage:** The use of images and text is balanced, providing an engaging introduction to the organization.
- II. **Sections:** Each section is well-defined, making it easy for users to understand the purpose of the website. The Resources and Events sections provide valuable information and are easy to navigate.
- III. **Contact Information:** Contact information is readily available at the bottom of each interface, allowing users to easily get in touch with the organization.

Features:

- I. **Find a position:** allows volunteers to find roles in specific locations - great for filtering out irrelevant opportunities.

The screenshot shows the top navigation bar of the Volunteer Assist website. The navigation links are: Volunteering, **Find a position** (highlighted in red), WeDo Sport, Corporate volunteering, Volunteer grievances, and Value of volunteering. Below the navigation bar is a large header section with the text "Volunteer Assist makes it easy" in a large, bold, black font. The word "Volunteer" is in red, and "Assist makes it easy" is in black. Below the header, there is a paragraph of text: "Introducing a service that provides one-on-one help to find the most suitable volunteer positions in all areas. Volunteer Assist team members are experienced, making you feel comfortable as they spend time getting to know what skills and passions you have." This is followed by another paragraph: "They help to match those skills to volunteer positions. Free appointments are recommended, in person or over the phone, with times ranging from half an hour to an hour." Then, a third paragraph: "Contact our friendly team to book an appointment by phoning 08 8221 7177." Below this text is a section titled "Search for volunteer positions online" with a subtext: "If would prefer to search and express your interest for a volunteer position online please click below:". At the bottom of this section are two red buttons with white text: "Click here to find a position in South Australia" and "Click here to find a position in the Northern Territory".

- II. **Responsive Design:** The website seems to adjust well to different screen sizes, which enhances the user experience across various devices.
- III. **Resources hub:** A collection of relevant information for volunteers and volunteer managers. Includes current best practice resources, tools, research, and information to support effective volunteer management.
